Gamify a mystical planet and its magical creatures

Create an ecosystem with its own economy

Use this ecosystem to grow the NFT community to bring all stakeholders together

PLANET INDARADOS

Planet Indarados has a highly variable multi-climatic environment with unique oxygen levels. Only Horzees can naturally live in Indarados making it uninhabitable for other species. So, majority of Indarados remain unexplored to this very day...

HORZEE STORY

Horzees are a racehorse breed with superhorse abilities, a third eye to utilize their vision perfectly in all environments and conditions, and two pairs of antennas to maintain their balance while running on unfamiliar surfaces. Some perfectly evolved Horzee breeds also have the ability to fly.

There are **12 different Horzee** species that have been in rivalry for centuries. But now their ancient adventure will be under the control of aliens from earth...

BACKGROUNDS

HORZEE POWER

Every Horzee comes with a body that has a fixed power and every added item adds a certain percentage of power to it. So Horzee Power is the sum of body power and the percentages of power every item adds to the body. Horzee power cannot be permanently increased, it can only be boosted on a race-base.

$$\text{HP} = \text{BP} + \text{BP} \times \text{ITEM}_1 + \text{BP} \times \text{ITEM}_2 + \dots + \text{BP} \times \text{ITEM}_n$$

HP - Horzee Power
BP - Body Power

HORZEE POWER

VARIABLES

As Horzee Power is a fixed number determined by rarity, there are several variables to ensure the balance of power among Horzees.

Each Horzee starts the game with 100% energy and lose half their energy in each race. There are ways to replenish their energy.

Indarados is a planet with a highly variable climate and sudden weather changes can occur during

The tracks are planned per the diversity of the Horzees. Track conditions can give your Horzee an advantage or a disadvantage.

HORZEE POWER

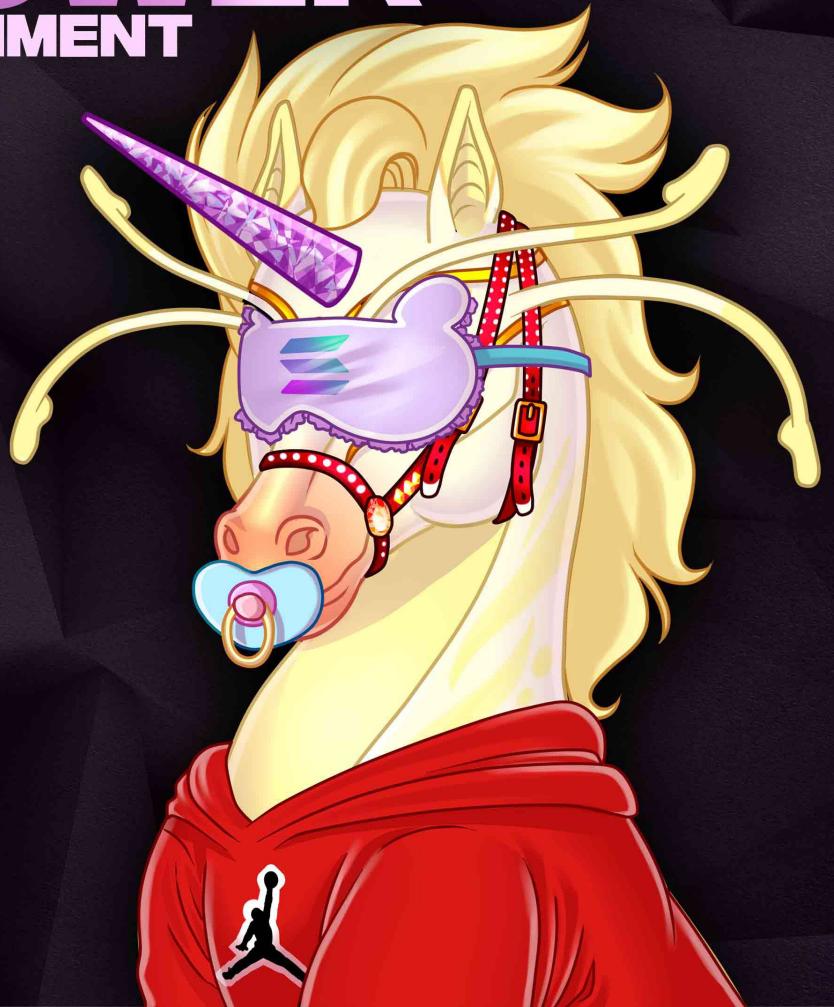

ENERGY REPLENISHMENT

INSIDE THE STABLE

If Horzees spend their free time in the stable, it will fully replenish in 24 hours, regardless of Horzee's actual power. **Maximum of two Horzees can be placed in the stable.**

OUTSIDE THE STABLE

If Horzees rest outside the stable, their strength will increase by 1 unit every hour.

HORZEE POWER

VARIABLE CALCULATION

Different weather conditions and track types affect the Horzee Power depending on the Horzee's body type. For example, **Icy Horzee** will run faster in the ice track and/or snowy weather.

ADVANCEMENT STONES

HORZEE MERGE STONE

Users with two or more Horzees can use the Horzee Merge Stone to transform their two Horzees into one much stronger and more superior Horzee. Two original Horzees will have to be staked for two months and cannot participate in races during this period.

BABY HORZEE STONE

Users with two or more Horzees can use the Baby Horzee Stone to get a third Horzee. Two parent Horzees will have to be staked for two months and cannot participate in races during this period. And it will take two more months for the Baby Horzee to grow into a full adult.

* Advancement stones cannot be purchased. They will only be distributed to final race winners, some discord members and social media followers.

CLASSIC RACES

Classic races are played with a total of 100 Horzees competing in lobbies of 10. Winners from each lobby gets to compete in the final race. Reward pool will be divided in two; the first half will be awarded to the qualifier lobbies and the second to the final lobby winner.

For example, if the reward pool is 10 Sol, the winners of the first 10 lobbies will win 0.5 Sol each. The winners then will compete in the final lobby, where final winner will be getting the rest of the reward pool, in this case, 5 Sol.
